

## LOGIC UNDERGOING NUMERICAL ANALYTICAL REASONING

LUNAR is a numerical IQ-test consisting of 30 items. LUNAR aims to measure pattern reasoning skills as well as obtained knowledge (for some items). Work on this test alone with your own brainpower. Help from diverse books, internet etc is granted. Help from HUMAN sources is STRICTLY FORBIDDEN!

The test is untimed. One submission is allowed. Send your answers to [info@iqlati.net](mailto:info@iqlati.net)  
You will normally get your score report within one week.

A first norm will be set after 30 submissions at <http://iqlati.net/LUNAR>

Along with your answers I need the following information

Name

Age

Country of origin

E-mail

Precious IQ-tests taken including scores (only 1<sup>st</sup> attempts)

A photocopy/scan/image of your ID/drivers license/passport is needed to prevent fraud

If you feel uncomfortable with sending your ID or if you aren't able to, you can pay an anti-cheating fee of €3 through PayPal.

The test begins on the next page.

Have fun and good luck!
